

# E-Z DUNGEONS

## Floor Trap

The pit trap can be visible to the players (place a stand-alone pit trap in the hallway first,) and when they leap it they trigger the spring loaded floor section on the opposite side, dumping them into the pit.

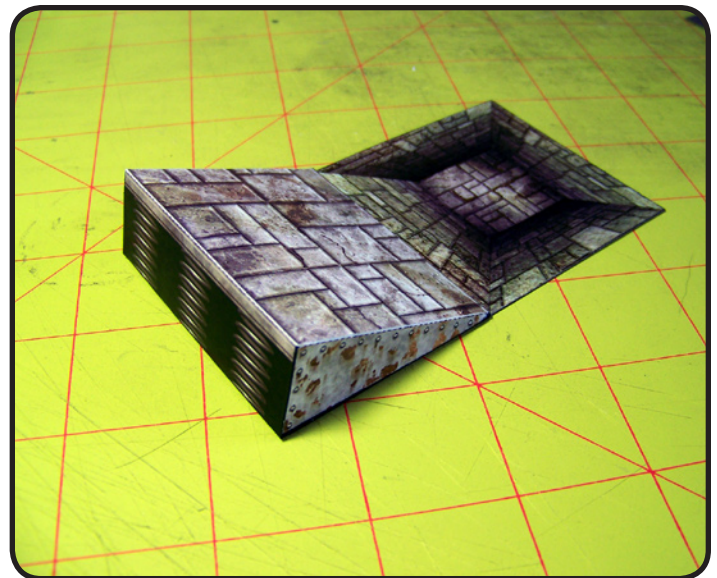

Cut, score and test fold the two pieces of the model as shown above.

Glue along the long edge tab first and allow to dry.

Fold and glue the sides into place.

Attach to the base piece as shown.
