Welcome to the Dragonsfoot Book of Names! Many members of the Dragonsfoot Forums at <http://www.dragonsfoot.org/forums> have submitted names from their own campaigns to be included in this document. Hopefully this will help you in naming the many characters who come and go in your games.

Names in this document are given in strictly alphabetical order, without reference to race, sex, class, etc. It is left to the individual player or game master to decide how to use them. This document is updated on an irregular basis; check the download area of Dragonsfoot.org for the most current version.
