Foreword

What is this for exactly? Would you like me to give you a clue? One might ask what this edition the series is exactly for? Well, any crafty and creative thinking GM will have no trouble making a use of these 100 clues. Not only is this ideal for creating a sense of mystery, but it can also lead your players on a wild goose chase and act as a red herring if you prefer. Alternately, use these clues at random as voices from beyond, divinations or clairvoyance.

While these are good ideas, lets not forget that a clever GM could easily weave these into the story with a few tweaks, here and there and make them integral to the plot of the campaign. You can use these entries on this chart as you wish, written or spoken, there is no reason this table can't fit a whole plethora of uses. Enjoy sending your players into confusion and befuddlement!!
