

To print your XP Deck, set your double-sided printer to **short-edge binding** and print on a cardstock material. Then, with a sharp utility knife and straight edge, use the crop marks as guides to trim the cards apart.

If you don't have a double-sided printer, print the pages individually and then glue them back-to-back with a thin, even coat of adhesive. Before glueing, hold the back-to-back sheets up to a light source to ensure they are lining up correctly.

The gutters between the cards give you a little bit of leeway if the two sides do not line up exactly.

Numenera™ GMs and players alike will find it easy to keep track of experience points using these cards. When a GM uses GM intrusion, he slides two 1 XP cards across the table to the appropriate player. The player, in turn, awards one of the cards to another player. Players can save up cards and then “spend” them to advance their character or make a re-roll.
