FOREWORD

“I think they're wonderful!”

Welcome to this special "Grim's Amazing D100 Tables" title.

In a departure from the normal faire, this time we take a light hearted look at Stupid, Silly or Offensive names for you good people to use in your RPG games.

Please take note that some are indeed stupid or silly, but a great many are very offensive, so if you are easily triggered or still live in the Victorian era, then first I apologise, and secondly tell you to GTFOH!

These names are not to be taken seriously, so probably best not to use while in that intense game with the very serious GM!

If you've downloaded this title from us at Grinning Skull Studios for the first time, then I will reassure you that this is not our usual book theme, but more for those with a sense of humour, and please check out our other titles in our ranges. From adventures to adventure ideas, name lists to encounters, paper models, floor plans and wargaming material, we have many strings to our bows!

Anyway, these dubious names would be ideal for beer and pretzels gaming, or as humorous NPCs that occupy a small corner of your game world, even rename your friends or players (or GM) if you like, as ever, the choice is yours about how you use this material. More so than ever, make sure you have fun and enjoy!!
