# Introduction

The news is a funny old thing, isn't it? What with today's boom in fake news and social media it looks like the world is ever more connected, yet totally at a disconnect.

The bizarre state of things leaves us with uncertainty at what is exactly real or false as the mainstream media keeps churning out weirdness on a daily basis, and we the consumer at the end of the chain is left to scratch our heads.

Well, never fear, here's a way of bringing some of that craziness to your modern RPG games. Be it headlines on the 24 hour news, newspapers, websites and social media outlets, we have 100 random and bizarre headlines to fit into your games. Some of these are totally red flags, but a clever GM will be able to take these threads and work them into their games to move the plots along.

As ever, have fun and enjoy!
