# 1,000 ROOMS OF MADNESS

## **An endless labyrinth of possibilities.**

So. The adventurers open the door at last, into the dread reach of the dungeon which you have not had time to design yet. And there, to their ultimate bafflement, they discover ... what?

Roll D1000 to find out.

This resource will always help you, and energize your own ideas, whenever you need a new room concept for any dungeon, enchanted stronghold, or subterranean locale.

You can also use this compendium to create an entire dungeon in just a few minutes. Keep rolling to key any existing map (whether it be online, of your own design, whatever), or just pick a room name that appeals to you and design an encounter concept around it. If any of the details provided here don't seem to fit, drop a word and substitute one of your own. It's really that fast, and that simple. (You may want to utilize resources such as dictionary.com, or Wikipedia, to track down the meanings of obscure words and room types. Google Books can be helpful as well, due to a fair selection of old architectural dictionaries that I used.)

Happy gaming! Have fun with your next (and completely unpredictable) dungeon design. And remember: If you blithely decide that any one entry herein makes 100% sense, right off the bat and without any creative thought or input of your own? Then you're not doing it right. ☺ Use these entries to spark your own ideas, and then improve the initial concept with imagination.

Have fun. May you give these ideas dark wings of your own design!
